Patteson Social Club Snooker Ladder

Player guide · Season 1 Feb 2026 – 31 Jan 2027

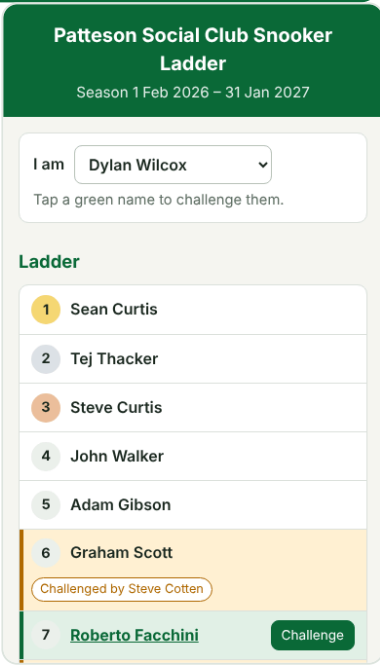

adam-gibson.github.io/snooker-ladder

1. Getting started

- Open the address above on your phone. Anyone can view the ladder; no login needed.
- **Save it to your home screen:** iPhone (Safari): **Share › Add to Home Screen**. Android (Chrome): ⋮ **› Add to Home screen**.
- Adam will send you a private **4-digit PIN**. You need it only to challenge, book a date or enter a result. Keep it to yourself. You can change it with **Change my PIN** at the bottom of the page.
- At the top of the page, choose your name in the **"I am"** box. Your phone will remember it.

2. Reading the ladder

Green: a player you can challenge **Amber**: already in a challenge **Blue**: you

Example: Dylan (blue) can challenge Roberto (green)

3. Making a challenge

1. Tap the **green name** (or its **Challenge** button).
2. Enter your PIN and tap **Send challenge**. **The 240-hour (10-day) clock starts straight away.**
3. Tap **Message … on WhatsApp** and/or **Post in the WhatsApp group**. The message is written for you, so just press Send.

You can challenge the player **1 or 2 places above you**, if neither of you is already in a challenge. You can only be in one challenge at a time.

4. Booking the match

1. Under **Challenges in progress**, either player taps **Book date**.
2. Choose the date and time and enter your PIN. Use **Change date** if plans change.

> **The match must be played before the deadline.** The site will not accept a date after it. If no result is entered in time, **the challenger is given the win** and the ladder updates automatically.

5. Entering the result

1. After the match, either player taps **Enter result**, picks the winner and the score (**2–0 or 2–1**) and enters their PIN.
2. The other player taps **Confirm result**, and the ladder updates straight away.
3. If they do nothing, the result is **confirmed automatically after 24 hours**.
4. If the result is wrong, tap **Dispute** and Adam will decide.

6. How the ladder changes

Result	What happens
Challenger beats the player **1 place** above	They swap places.
Challenger beats the player **2 places** above	Challenger takes that place. The beaten player drops 1. The player in between drops into the challenger's old place.
Challenger loses	Nobody moves.
Not played by the deadline	Counts as a win for the challenger.

Example: #8 beats #6 → #8 becomes #6, old #6 becomes #7, old #7 becomes #8.

7. Free phone alerts (recommended)

Get an alert on your phone when you are challenged, a match is booked, a result needs confirming or a deadline passes.

1. Install the free **ntfy** app from the App Store or Google Play.
2. Open it and tap **+** (Subscribe to topic).
3. Type the **alert topic** Adam sent you exactly as given (e.g. *psc-ladder-…*). Leave the server as the default and tap **Subscribe**.
4. Allow notifications when asked.

> Keep your topic private: anyone with it would see your alerts.

8. Good to know

- Forgotten your PIN? Ask Adam for a new one.
- To leave the ladder, ask Adam in the WhatsApp group. Everyone below you moves up one place.
- New challenges stop 10 days before the season ends (31 Jan 2027). Next season starts with names drawn out of a hat.
- The full rules are also on the site under **Ladder rules**.
